I-H-1 "North Mediterranean"

Dear Secretary General,

President Delors has asked me to thank you for your letter of 15 April in which you brought to his attention the urgent need for the international community to intervene to try to put an end to the fighting which is devastating the Republic of Bosnia-Herzegovina.

I should like to assure you that the Commission of the European Communities which has been deeply shocked that such an appalling war is taking place, is deploying all possible efforts to bring to an end the killing and destruction.

We are bitterly disappointed that up to now our appeals to reestablish peace appear to have gone unheeded.

Yours sincerely,

E. RHEIN
Director

For the attention of H E M. Jacques Delors

Excellency,

The situation in Bosnia Herzegovina is reported to have become extremely dangerous and unless immediate action is taken it could very soon become catastrophic. To prevent a mass massacre of the people of Bosnia Herzegovina and the wholesale destruction of cities we appeal to you for immediate intervention by the EC which has recognised Bosnia Herzegovina as an independent state.

With kind regards,

Yours sincerely,

Salem Azzam
